Number of Dengue cases

*It is important to note that day-to-day numbers fluctuates as they depend on the number of notification received.
Therefore, weekly numbers are a better reflection of actual trends.*

No. of Reported Cases*

7-Apr	8-Apr	9-Apr	10-Apr	11-Apr	12-Apr	13-Apr at 3.30pm
11	17	16	16	15	6	13

*provisional

No. of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 09 (01-07Mar15)	E-week 10 (08-14Mar15)	E-week 11 (15-21Mar15)	E-week 12 (22-28Mar15)	E-week 13 29 Mar-04Apr 15	E-week 14 (05-11Apr15)	E-week 15 (12-13Apr 15) at 3.30pm
190	110	91	130	91	108	19

Cumulative No. of cases for 2015 (First 14week): 2357

Compiled by Communicable Diseases Division, Ministry of Health

108 dengue cases were reported in the week ending 11 Apr, **17** cases more than the previous week. The increase in cases is a timely reminder that we need to remain vigilant and continue to work as a community to keep dengue cases in check as a large proportion of our population is still susceptible to dengue infection due to the lack of immunity.

Source eradication of mosquito breeding habitats remains key to preventing mosquito breeding. All stakeholders must play their part to help stem dengue transmission in the environment, by checking their premises daily for potential mosquito breeding habitats and removing them. Residents with plants in vases should change the water and scrub the inside of the vases every alternate day to prevent mosquito breeding. Those infected with dengue should protect themselves from mosquito bites by applying repellent as regularly as possible, and those showing symptoms suggestive of dengue, should see their GPs early to be diagnosed.

NEA encourages everyone to join in the collective effort to help stop the dengue transmission cycle by doing the 5-step Mozzie Wipeout. All of us, including residents, contractors, and business owners, have a part to play in preventing dengue. The latest updates on the dengue situation can be found at the Stop Dengue Now Facebook page, www.dengue.gov.sg or the myENV app.
