Compiled by Communicable Diseases Division, Ministry of Health

In the week ending **21 Jun 2014**, there were **555** reported cases of dengue. Cases continue to be on the rising trend. We expect to see further transmission of dengue in the next two or three months, due to the warmer weather, unless the mosquito population is controlled. NEA is working closely with members of the Inter-Agency Dengue Task Force, such as PUB, to intensify mosquito control efforts at areas of concern, including the adjoining clusters at Serangoon/Hougang and Flora Drive. This includes deploying more officers to search and destroy breeding at these areas and increasing the frequency of cleaning the drains. NEA urges residents, premises owners and business owners to join in the fight against dengue.
