Number of Dengue cases

It is important to note that day-to-day numbers fluctuates as they depend on the number of notification received. Therefore, weekly numbers are a better reflection of actual trends.

No. of Reported Cases*

9-Aug	10-Aug	11-Aug	12-Aug	13-Aug	14-Aug	15Aug at 3.30pm
30	21	96	89	69	70	30

*provisional

No. of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 27 (29Jun-05Jul14)	E-week 28 (06-12Jul14)	E-week 29 (13-19Jul14)	E-week 30 (20-26Jul14)	E-week 31 (27Jul-02Aug14)	E-week 32 (03-09Aug14)	E-week 33 (10-15Aug14) at 3:30pm
891	819	746	635	483	547	375

Cumulative No. of cases for 2014 (First 32 weeks): 12781

Compiled by Communicable Diseases Division, Ministry of Health

547 dengue cases were reported in the week ending 9 Aug, **64** cases more than the previous week. The number of dengue cases remains high and NEA advises all stakeholders to stay vigilant as we are still in the peak dengue season.

To protect ourselves, all of us need to play our part in removing stagnant water from our environment, so as to deprive the mosquitoes of their breeding habitats. Inverting pails and plant pot plates, changing water in vases regularly, and capping bamboo pole holders when they are not in use are simple steps that everyone can take to prevent mosquitoes from establishing a foothold in our neighbourhoods. Those infected with dengue should protect themselves from mosquito bites by applying repellent regularly, and those showing symptoms suggestive of dengue should see their GPs early to be diagnosed.

NEA encourages everyone to be an advocate and remind his family members and neighbours to join in the collective effort to help stop the dengue transmission cycle by doing the 5-step Mozzie Wipeout. All of us, including residents, contractors, and business owners, have a part to play in preventing dengue. The latest updates on the dengue situation can be found at the Stop Dengue Now Facebook page, www.dengue.gov.sg or the myENV app.
