Latest Dengue Data

Number of Dengue cases

It is important to note that day-to-day numbers fluctuates as they depend on the number of notification received. Therefore, weekly numbers are a better reflection of actual trends.

No. of Reported Cases*

17-Jan	18-Jan	19-Jan	20-Jan	21-Jan	22-Jan	23-Jan at 3.30pm
18	11	45	35	40	38	22

*provisional

No. of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 50 (07-13Dec14)	E-week 51 (14-20Dec14)	E-week 52 (21-27Dec14)	E-week 53 (28Dec14-03Jan15)	E-week 01 (04-10Jan15)	E-week 02 (11-17Jan15)	E-week 03 (18-23Jan15) at 3.30pm
177	198	188	158	257	230	191

Cumulative No. of cases for 2015 (First 2 week): 487

Compiled by Communicable Diseases Division, Ministry of Health

230 dengue cases were reported in the week ending 17 Jan, **27** cases fewer than the previous week. While there has been a decrease in the number of dengue cases, we need to remain vigilant and continue to work as a community to keep dengue cases in check as a large proportion of our population is still susceptible to dengue infection due to the lack of immunity.

Source eradication of mosquito breeding habitats remains key to preventing mosquito breeding. All stakeholders must play their part to help stem dengue transmission in the environment, by checking their premises daily for potential mosquito breeding habitats and removing them. Those infected with dengue should protect themselves from mosquito bites by applying repellent as regularly as possible, and those showing symptoms suggestive of dengue, should see their GPs early to be diagnosed.

NEA encourages everyone to join in the collective effort to help stop the dengue transmission cycle by doing the 5-step Mozzie Wipeout. All of us, including residents, contractors, and business owners, have a part to play in preventing dengue. The latest updates on the dengue situation can be found at the Stop Dengue Now Facebook page, www.dengue.gov.sg or the myENV app.
