Number of Dengue cases

It is important to note that day-to-day numbers fluctuates as they depend on the number of notification received. Therefore, weekly numbers are a better reflection of actual trends.

No. of Reported Cases*

18-Oct	19-Oct	20-Oct	21-Oct	22-Oct	23-Oct	24-Oct at 3.30pm
32	22	45	56	14	32	12

*provisional

No. of Reported Cases by E-week (from Sun 0000hrs to Sat 2359hrs)

E-week 37 (07-13Sep14)	E-week 38 (14-20Sep14)	E-week 39 (21-27Sep14)	E-week 40 (28Sep-04Oct14)	E-week 41 (05-11Oct14)	E-week 42 (12-18Oct14)	E-week 43 (19-24Oct14) at 3.30pm
363	397	346	339	280	301	181

Cumulative No. of cases for 2014 (First 42 weeks): 16368

Compiled by Communicable Diseases Division, Ministry of Health

301 dengue cases were reported in the week ending 18 Oct, **21** cases more than in the previous week. The risk of dengue transmission remains high and NEA advises all stakeholders to stay vigilant. We need to keep up our efforts to prevent dengue cases from picking up again.

Source eradication of mosquito breeding habitats remains key to preventing mosquito breeding. All stakeholders must continue to play their part to help stem dengue transmission in the environment, by checking their premises daily for potential mosquito breeding habitats and removing them. Those infected with dengue should protect themselves from mosquito bites by applying repellent as regularly as possible, and those showing symptoms suggestive of dengue, should see their GPs early to be diagnosed.

NEA encourages everyone to be an advocate and remind his family members and neighbours to join in the collective effort to help stop the dengue transmission cycle by doing the 5-step Mozzie Wipeout. All of us, including residents, contractors, and business owners, have a part to play in preventing dengue. The latest updates on the dengue situation can be found at the Stop Dengue Now Facebook page, www.dengue.gov.sg or the myENV app.
