Latest Dengue Data

Number of Dengue cases

It is important to note that day-to-day numbers fluctuates as they depend on the number of notification received. Therefore, weekly numbers are a better reflection of actual trends.

No. of Reported Cases*

4-Nov	5-Nov	6-Nov	7-Nov	8-Nov	9-Nov	10-Nov at 3.30pm

339	280	297	213	186	169	14
(28Sep-04Oct14)	(05-11Oct14)	(12-18Oct14)	(19-25Oct14)	(26Oct-1Nov14)	(02-08Nov14)	(09-10Nov14) at 3.30pm
E-week 40	E-week 41	E-week 42	E-week 43	E-week 44	E-week 45	E-week 46

Cumulative No. of cases for 2014 (First 45 weeks): 16932

Compiled by Communicable Diseases Division, Ministry of Health

169 dengue cases were reported in the week ending 8 Nov, **17** cases fewer than in the previous week. Weekly cases have dipped consecutively over the past 3 weeks. While there has been a decrease in the number of dengue cases, we need to remain vigilant and continue to work as a community to keep dengue cases in check, as a large proportion of our population is still susceptible to dengue infection due to the lack of immunity.

Source eradication of mosquito breeding habitats remains key to preventing mosquito breeding. All stakeholders must play their part to help stem dengue transmission in the environment, by checking their premises daily for potential mosquito breeding habitats and removing them. Those infected with dengue should protect themselves from mosquito bites by applying repellent as regularly as possible, and those showing symptoms suggestive of dengue, should see their GPs early to be diagnosed. Those planning to go overseas for vacation during the current school holidays should also mosquito-proof their homes before they travel.

NEA encourages everyone to be an advocate and remind his family members and neighbours to join in the collective effort to help stop the dengue transmission cycle by doing the 5-step Mozzie Wipeout. All of us, including residents, contractors, and business owners, have a part to play in preventing dengue. The latest updates on the dengue situation can be found at the Stop Dengue Now Facebook page, www.dengue.gov.sg or the myENV app.
